Noble Secures \$1 million Debt Financing

Toronto, Ontario – November 22, 2013, Noble Mineral Exploration Inc. (the "**Company**", "**Noble**" or "**NOB**") (TSX-V:NOB, FRANKFURT:NB7, OTC.PK:NLPXF) announces that it has closed a \$1,000,000 debt financing with Bridging Capital Fund LP.

The loan provided to the Company is secured by a mortgage on the property comprising Noble's Project 81, as well as by a charge on all other assets of the Company. The mortgage securing this loan is subordinate in ranking to existing mortgages on the Company's properties in favour of Franco-Nevada Corporation (secured debentures issued in October 2011 (for a principal amount of \$2,000,000) and April 2012 (for a principal amount of \$1,500,000)). Also, other existing secured creditors of the Company have agreed with the lender that their loans would be subordinate to the security granted by Noble to Bridging Credit Fund LP.

Interest accrues on this new secured facility at prime plus 12% per annum, with interest to be paid monthly. Noble also paid a commitment fee of \$20,000 to the lender.

The TSX Venture Exchange approved the terms of this transaction on September 9, 2013.

The proceeds of this loan will be used to provide the Company with working capital while the anticipated purchaser of the Company's surface and timber assets completes its due diligence. This due diligence is currently well underway.

The Company is continuing its efforts to monetize other of its assets, including by pursuing opportunities for real estate sales on other parts of Project 81. In addition, Noble is entertaining proposals for the establishment of joint venture relationships to advance mineral exploration of Project 81 (in the Timmins area of Northern Ontario) as well as the potential to develop the Company's Black Sands Gold Project near Wawa, Ontario.

About Noble Mineral Exploration Inc.:

Noble Mineral Exploration Inc. is a Canadian based junior exploration company holding in excess of 72,000 hectares of property in the Timmins, Iroquois Falls and Smooth Rock Falls areas of Northern Ontario. The Company also holds a portfolio of diversified exploration projects at various stages of exploration and drilling - Gold in the Wawa area of Northern Ontario, and Uranium in Northern Saskatchewan.
