Exploration Update Drilling Commences in Mann Twp Options by Canada Nickel

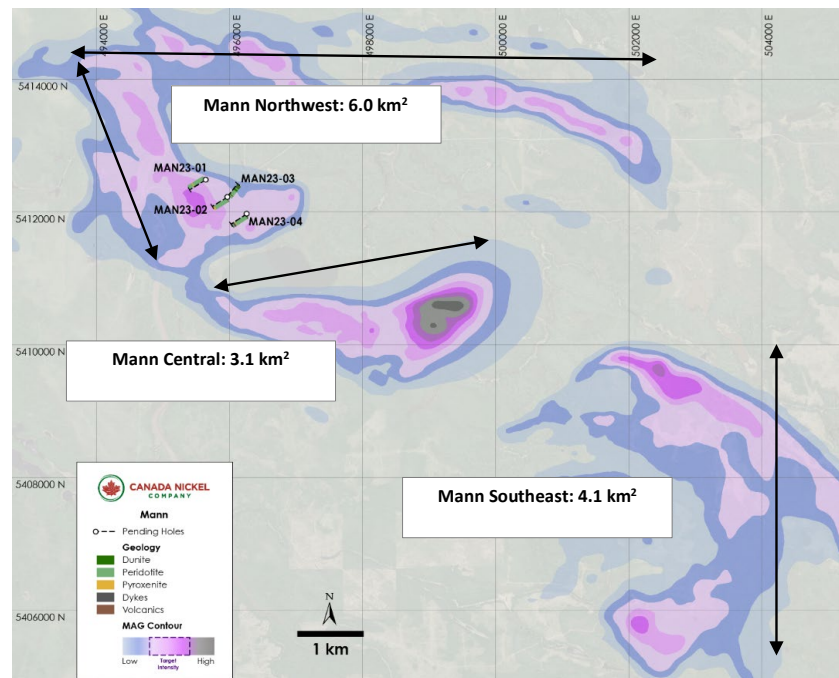

Toronto, Ontario – May 24, 2023 – Noble Mineral Exploration Inc. (“Noble” or the “Company”) (TSX-V:NOB, FRANKFURT: NB7, OTCQB:NLPXF) is pleased to report that Canada Nickel Company Inc. (“Canada Nickel”) has initiated a drill campaign on the properties optioned from Noble in Mann Twp et al. The direct related quotes are taken from the Canada Nickel News Release of May 24, 2023.

“Mann Northwest Property

The Mann property is located 22 kilometres east of Crawford and 45 kilometres northeast of Timmins. The property consists of at least three main ultramafic targets like that at Crawford – Mann Northwest with a target footprint of 6.0 km², Mann Central with a target footprint of 3.1 km², and Mann Southeast with a target footprint of 4.1 km² - compared to Crawford target footprint of 1.6 km² (see Figure 1).

Drilling started in the Northwest zone, with the first four drillholes intersecting very strongly serpentinized peridotite and minor dunite. These first four holes delineated mineralization along 800 metres of strike length and a width of at least 500 metres within a total target length of 10.4 kilometres. Mann Northwest remains open in all directions. Mineralogy and assays are pending. All four holes collared in dunite/peridotite with lesser intersections of pyroxenite and some minor dykes (Figure 1). All holes show strong serpentinization, and fine-grained mineralization throughout.”

Figure 1. Plan View of Mann zones with ongoing drilling in Northwest area.

Vance White, President and CEO of Noble, said “we are extremely pleased to see Canada Nickel moving forward with their initial round of drilling in Mann Twp.”

About Noble Mineral Exploration Inc.

Noble Mineral Exploration Inc. is a Canadian-based junior exploration company which, in addition to its shareholdings in Canada Nickel Company Inc., Spruce Ridge Resources Ltd., Go Metals Corp. and MacDonald Mines Exploration Ltd., and its interest in the Holdsworth gold exploration property in the area of Wawa, Ontario, will continue to hold ~25,000 hectares of mineral rights in the Timmins-Cochrane areas of Northern Ontario known as Project 81, as well as an additional ~11,000 hectares in the Timmins area and ~14,400 hectares of mining claims in Central Newfoundland. Project 81 hosts diversified drill-ready gold, nickel-cobalt and base metal exploration targets at various stages of exploration. It will also hold its ~14,600 hectares in the Nagagammi Carbonatite Complex and its ~4,600 hectares in the Boulder Project both near Hearst, Ontario, as well as its ~482 hectares in the Cere-Villebon Nickel, Copper, PGM property, its ~3,700 hectares in the Buckingham Graphite Property, its ~10,152 hectares in the Havre St Pierre Nickel, Copper, PGM property, its ~518 hectares in the Laverlochere Nickel, Copper, PGM property, all of which are in the Province of Quebec.
