## **Noble Mineral Exploration Partners with ORIX Geoscience Inc on Project 81**

**Toronto, Ontario – September 18, 2017 Noble Mineral Exploration Inc. (“Noble” or the “Company”)** (TSX-V:NOB, FRANKFURT: NB7, OTC.PK:NLPXF) is pleased to announce that the company has partnered with ORIX Geoscience Inc. (“Orix”) to compile a complete, extensive, comprehensive and detailed data compilation for its very prospective Project 81 Property, located north of Timmins and immediately adjacent to the Kidd Creek Mine.

Orix Geoscience Inc. (“Orix”) is a team of geoscience professionals who partner with junior exploration and mining companies and provides their partners with complete and comprehensive data collection, interpretation and project management. Orix specializes in compiling, interpreting and modelling large datasets, such as with Project 81.

Orix will undertake and provide to Noble, a new Data Network Organization, compile a complete Drillhole Database by consolidating and standardize all historical drill hole data into a well organized, queryable and locked database, finalize all Legends by lithology, alteration, structure, textures, mineralization and assay results. This compilation will also include the recent Heliborne EM/Mag survey over Carnegie and Crawford Twps as well as data from the recently announced Gravity Gradiometer survey to be flown over the entire Project 81.

Orix also provides its partners with a full range of additional geological services such as 2D GIS Compilation, 3D modelling of mineralization, PowerPoint presentational material, internal marketing, IT teams, target generation, drill hole spotting, drill hole management and supervision. The project is estimated to be completed by December 15th, 2017, however priority has been given to Carnegie, Crawford, Dargavel and Lucas Twps in that order.

Orix will have a team in the field Sept 19<sup>th</sup> to locate drill hole collars done by MacIntyre Porcupine and others from the '60's, 70's and 80's on the Lucas gold project in advance of proposed drill program during the winter 2017-2018 exploration season.

Vance White President of Noble commented “we are delighted to be partnered with such a sponsored and sophisticated group of geoscientists that have had tremendous success in the field over the years...we very much look forward to their input on what we feel to be one of the largest contiguous tracks of underexplored mining lands in Ontario”.

### **About Noble Mineral Exploration Inc.:**

Noble Mineral Exploration Inc. is a Canadian based junior exploration company which, apart from its shareholdings in MacDonald Mines Exploration Ltd. and its interest in the Holdsworth gold exploration property in the area of Wawa, Ontario, holds in excess of 70,000 hectares of mineral rights in the Timmins - Cochrane areas of Northern Ontario known as Project 81. Project 81 hosts diversified drill ready gold and base metal exploration targets at various stages of exploration. More detailed information is available on the website at [www.noblemineralexploration.com](http://www.noblemineralexploration.com).

Randy S C Singh P.Geo. (ON), P.Eng (ON) VP- Exploration & Project Development a "qualified person" as such term is defined by National Instrument 43-101 has verified the data disclosed in this news release, and has otherwise reviewed and approved the technical information in this news release on behalf of Noble.

Orix Geoscience Inc. (Orix) is a geological consulting firm that partners with exploration and mining companies. This partnership provides access to a strong technical team that supplements our client's internal workforce. Orix's multi-faceted team has offices in Toronto, Sudbury, and Winnipeg that provides support for both Canadian and international projects focusing on data collection, interpretation, and project management. They specialize in compiling, interpreting, and modeling large datasets and work closely with their clients to generate targets and execute field programs. Services also include: providing support to internal Marketing and IT teams.

As part of the partnership, Orix covers all costs related to hardware (office supplies, computers, keyboards, monitors, mouse, network maintenance and backups, etc.) and software (Datamine, Leapfrog, ArcMap, MapInfo, Fusion, Microsoft Office Suite, Google Earth Pro, etc.). Orix has WSIB coverage and all required liability insurances. The only aspects of a project that Orix does not cover is all reasonable out-of-pocket expenses, which include travel expenses and accommodations, as well as other requests such as banner-up printing and plotter paper.

At Orix, they believe their client partnerships deserve the best quality products and services resulting from strong working relationships and a disciplined work ethic. Their business model is focused on cultivating long term relationships that focus on their client's needs and ultimately the success of the project.
